CAPABILITIES STATEMENT

PROVIDING VALUE DRIVEN SUPERIOR
SECURITY SOLUTIONS TO OUR CUSTOMERS!

HISTORY

Strategic Security is one of America's finest, Nationally Certified Woman Business Enterprise. Established in 2002, Strategic Security is an industry leading provider of specialized security, fire and emergency response services, federal government security requirements, intelligence, consulting and investigation services.

Strategic Security Corp. (SSC) is a trusted name in security and assists organizations proactively by anticipating and managing risk which can transform workplace issues, such as employee safety, operational risk and emergency preparedness into opportunities for growth and improvement.

FAST FACTS

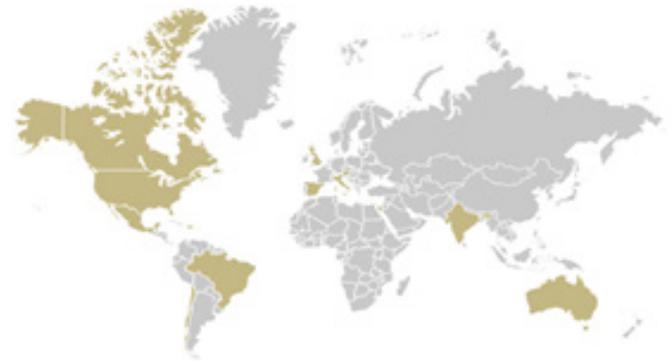

Annual Revenue.....	\$32 Million
Employees.....	3,500
Regional Offices.....	7
Local Offices.....	56

Headquarters.....	Commack, NY States /
Regions Served: 50 states, PR, 3 in Canada, 2 in Mexico, 1 in UK	
Credit Line.....	In excess of \$2.5 million available

LOCAL FOCUS

Strategic Security Corp. (SSC) has over 50 local branch managers throughout the United States, 2 in Mexico, 1 in the UK and 3 in Canada that are their own entity and operate independent of the parent. Each branch manager offers the commitment of a small business owner, with P & L responsibility for his/her local business operation. Our local branch human resource department conducts personal applicant interviews and manages our comprehensive hiring and screening process for all new hires. Our local branch scheduling manager coordinates scheduling and payroll with each site supervisor and assists with special staffing requirements for temporary or intermittent service. The scheduling manager also ensures that the correct payroll information for each client is submitted weekly, which in turn generates accurate invoices.

NATIONAL PRESENCE GLOBAL REACH

Strategic Security Corp. (SSC) is a leading provider of security officers and related services. Our worldwide network of affiliated security, consulting and investigations offices enables us to provide efficient, coordinated services to clients that conduct business internationally. Our group is well established in the U.S., Canada, Mexico, Europe, South America and Asia, and we have a network of partners in many other areas of the world as well.

FIRST CLASS

It is Strategic Security Corp. (SSC)'s ongoing goal to set the industry standard and continually raise the bar so that every employee, service and product surpass that standard for quality. To this end, we have implemented a comprehensive Service Excellent Framework approach to doing business. Measuring and improving client satisfaction is emphasized in every facet of our organization.

SECURITY SOLUTIONS

Most vendor-client relationships are reactive, where the client recognizes a need and the vendor is contracted to fill that need. With Strategic Security Corp. (SSC), however, that relationship is flexible, proactive and expansive. We not only strive to solve your initial security issues, but also to leverage our diversity to allow us to anticipate and prevent future exposures to your business risks. Pointing out issues is easy; preventing them - working with you proactively - will be our mission.

PROVIDING VALUE DRIVEN SUPERIOR SECURITY SOLUTIONS TO OUR CUSTOMERS!

Strategic Security Corp	Competitors
Privately owned, U.S. company, nationally certified A+ Better Business Bureau	Canadian, Swedish, French and British investment companies with no WBE or MBE designation
Core business is manned guarding and patrol services	Focused on "emerging markets" where there's lower capital and labor costs.
Flat, nimble, highly responsive organization at all levels	You will NEVER see Upper Level management after a contract is signed. Decisions require layers of bureaucratic approvals.
Senior level executive oversight throughout contract lifecycle – your business matters, you matter to us.	You will NEVER interact with a principle or executive level management because you are a client number not a name.
We care and drive creative cost-effective solutions through innovation and R&D to increase efficiencies and reduce risk that we share with our customers	If it doesn't generate profit it is not done.
No negative mainstream news media or legal scandals	Numerous negative mainstream news media and legal scandals
Committed to Employee Engagement and hiring the best people for the position. Numerous employee testimonials.	Their level of care is exhibited in management oversight, high turnover and adverse media attention.
Last year, Strategic has 0% turnover in management positions, Armed Advanced Security Officer 1%, Unarmed Advanced Security Officer 0%, Unarmed Basic Security Officer 3%	The annual turnover rate for a private security firm according to ASIS is over 75%
Your "One Stop" provider for all your security needs (Armed or Unarmed, EP, Investigations, Connectivity, K-9, Emergency Response, Temporary Life Support Facilities)	Most frown upon armed guarding, none provide rapid emergency response, nor provide K-9, investigations or temporary life support facilities

PROVIDING VALUE DRIVEN SUPERIOR SECURITY SOLUTIONS TO OUR CUSTOMERS!

SECURITY GUARDS (ARMED or UNARMED)

The mission of SSC's Uniformed Protection Services remains the same today as it was when it was founded - to create an entirely different sort of uniformed security officer division and in the process set a standard of excellence by which all security companies would be measured. We also know that the level of our service is directly related to the total of all of our procedures and approaches, and not to one or two areas. For this reason, we look at the whole picture (recruiting, screening, training, employee retention strategies, inspection programs, on - site and corporate management, and administrative support) when we evaluate our service. What we then deliver to our clients is a complete security service made up of components specifically designed to be of the highest quality. Strategic Security Corp.'s Guard Services include:

- Armed / Unarmed Guards
- Uniformed Guards
- Plainclothes Guards
- Mobile Patrol – Vehicles, Bicycles, Segways

EMERGENCY GUARDING FOR DISASTER

Strategic Security Corp., a U.S. Department of Homeland Security, FEMA contract holder of a FEMA BPA for the states of FL, AL, FL, MS, SC and GA, can mobilize our crisis response teams to support those trapped in the affected region and assist clients in the recovery efforts of the disaster or attack. We are proud of our current and past performance with FEMA having provided armed guards services in response to Presidential Disaster Declarations in Alabama, West Virginia, Texas, Florida, Georgia, North Carolina, New York and New Jersey.

SECURITY GUARD EQUIPMENT TECHNOLOGY

We give you access to view officer patrol activity in real-time. Our guard tour tracking software with GPS technology gives you real-time access to view officer patrol activity. This helps to ensure that officers are on site, alert, checking all posts and completing their tours. Better yet the software will send you an alert if your officers are not.

We make sure reports are delivered to your clients on time. Our electronic reporting software gives you and your clients a access to paperless reports whenever and wherever you need them. You can even review reports before your clients see them.

We GPS verify that officers are on site when they clock in for their shift. Our time and attendance software alerts you if your officers aren't clocking in and out of shifts on time. Time and attendance also helps make scheduling, payroll, and invoicing.

REMOTE GUARDING

Strategic Security Corp.'s (SSC) Remote Guarding, you get a tailor-made service to suit your organization's individual, compliance or regulatory needs across any industry. SSC offers clients two models for implementing a remote guarding as part of a larger incident detection and response (IDR) program.

Option 1: SSC installs a security camera system (no hard wiring required) that allows for autonomous operation no matter how remote your location for continuous 24/7 event driven monitoring, detecting and responding to security issues and incidents.

Option 2: SSC is granted by clients remote viewing privileges of client's own video camera system

PROVIDING VALUE DRIVEN SUPERIOR
SECURITY SOLUTIONS TO OUR CUSTOMERS!

EXECUTIVE PROTECTION

We deliver protection to suit your requirements and eliminate threats by providing secure hassle-free ground transportation, surveillance posts, escort agents, and advance planning that evaluates safe travel routes, hotels and facilities. Many of our agents are certified Transportation Security Administration Armed Security Officers under the Department of Homeland Security. We provide protection on land, sea and in the air. We offer:

- Personal (close-in) Protection Services,
- Family Protection Services,
- Residential Security Services and Systems, and
- Protection Advance Services that consist of lead agent intelligence advances and counter surveillance units

DETENTION CENTER SERVICES

Safety, security and human dignity are the pillars of successful detention center services for SSC. With constant training, supervision, quality assurance and contract management, SSC exceeds expectations in providing security guards or detention officers for permanent inmate detention centers or temporary detainee immigrant holding facilities.

SSC's staff performs:

Routine checks on a shift; monitoring the safety and security for inmates, the surrounding community and fellow staff.

- Securing housing units,
- Controlling inmate movement,
- Performing perimeter checks,
- Supervise inmates,
- Handle reporting and documenting incidents and resolving conflicts.
- Intelligence gathering
- Special Operations Response Teams
- Transportation services

LABOR / CIVIL UNREST

Labor unions have been knocked back, knocked down and knocked out for so long that a new generation of organizers is beginning to try something new. Instead of unionizing and then protesting, they're protesting first and conducting labor walk outs. SSC can assist in protecting your brand continuity by:

- Providing intelligence services as to what direction the movement is headed and whom is driving it,
- Government / Law Enforcement Relations,
- Quick reaction teams,
- Emergency response armed / unarmed security guards,
- Intelligence monitors or organizations, their organizers, activists, etc.

EVENT SECURITY

Strategic Security will help security professionals and event managers plan for, manage, and respond to risks during events thus ensuring the brand and continuity of the event – from large scale sporting events to annual shareholders' meetings, sales conferences, product road shows, publicity events, conventions, and large-scale parties. Strategic's extensive experience and consultative Event Security Programs helps you reduce risk and maintain event continuity, leading to better protection of your attendees, assets, and reputation. Each security officer is hand-picked according to the requirements of the event, each is highly trained and many hold qualifications in personal, venue and vehicle search techniques, VIP/celebrity protection, protestor extraction, conflict management, crowd management, vehicular and pedestrian management, secure credentialing and the operation of walk through or hand held magnetometers. Strategic works with you to develop emergency and communication plans in case of an incident.

- Event Security Officers
- Emergency Medical Technicians
- Fireguards
- Secure Credentialing

PROVIDING VALUE DRIVEN SUPERIOR
SECURITY SOLUTIONS TO OUR CUSTOMERS!

INTEGRATED SERVICES

Strategic Security Corp. (SSC) brings advanced solutions to the design, deployment and maintenance of single stand-alone or multi-integrated electronic security systems.

Integrated Security Group (ISG), a Strategic Security partnership company provides one of the leading global brands of access control and video management in the world. We develop robust technology for identity management, video and intrusion. We also offers the best solution for large, enterprise-class security systems to meet compliance requirements.

RISK CONSULTING

Helping companies, government agencies and individuals reduce their exposure to risk, prevent chaos in a crisis and capitalize on business opportunities.

Strategic Security Corp specializes in the following Security, Risk Mitigation & Crisis Management Consulting Services:

- Risk Assessment Services
- Business Continuity and Disaster Recovery
- Physical Security & Hazard Vulnerability Assessments
- Design Teams / Project Managers

ANTI MONEY LAUNDERING (AML) / REGULATORY COMPLIANCE

The USA Patriot Act of 2001, section 352 requires NFA Member futures commission merchants (FCMs), brokers (IBs) and NASD broker / dealer firms to have anti-money laundering (AML) compliance programs in place as of April 24, 2002. Strategic Security Corp. (SSC) regulatory compliance teams are comprised of former members of the Department of Treasury, High Intensity Financial Crimes Area (HIFCA) and other Government agencies as well-known financial institutions. Strategic Security understands the important elements of AML compliance requirements and can explain how our training programs and audit / consulting services can fully meet all requirements of the CFTC, SEC, NFA and FINRA. The USA Patriot Act of 2001 requires the following:

- Development of internal polices procedures and controls.
- Designation of a Compliance Officer at your firm.
- Ongoing employee training program.
- Independent audit function to test your AML programs. Strategic Security understands the demands of the regulators and can assist top tier holding companies (BHCs), including financial holding companies (FHCs) with Federal Reserve Act Section 23A / 23B and Gramm-Leach-Bliley Act (GLBA) compliance.

PROVIDING VALUE DRIVEN SUPERIOR SECURITY SOLUTIONS TO OUR CUSTOMERS!

Our explosive detection K9 Teams saves lives and physical assets, while our drug detection K9 Teams assists law enforcement and higher education to help eradicate addition problems in our society.

Strategic Security Corp K9 Teams service the following locations:

- Malls and Shopping Centers
- Concerts & Sporting Events
- Educational Institutions
- Convention Centers
- Air and Ground Shipping Centers
- Distribution / Fulfillment Centers
- Transportation Centers
- Government Facilities

GLOBAL SECURITY OPERATIONS CENTER (GSOC) AS A SERVICE

Organizations are coupled with an ever-growing workload, limited staffing, increasing volume of interconnected systems and budgetary constraints, organizations are challenged with implementing an operational capability to protect their vital assets, data, trade secrets and brand.

Strategic Security Corp.'s (SSC) Security Operations Center (SOC) is a physical, centralized headquarters for monitoring, detecting and responding to security issues and incidents to support SSC field operations.

SSC offers corporate clients several models for implementing a SOC as part of a larger incident detection and response (IDR) program. These models include:

- Co-managed model
- Fully outsourced model

The various responsibilities within a company's security team can be extremely complex, and SSC's SOC can not only serve as the tactical console to empower team members in performing their day to day tasks, but as a strategic center to keep the team aware of bigger, long term security trends.

PROVIDING VALUE DRIVEN SUPERIOR SECURITY SOLUTIONS TO OUR CUSTOMERS!

Strategic uses proprietary patented pending technology to provide a holistic security solution that combines command and control with:

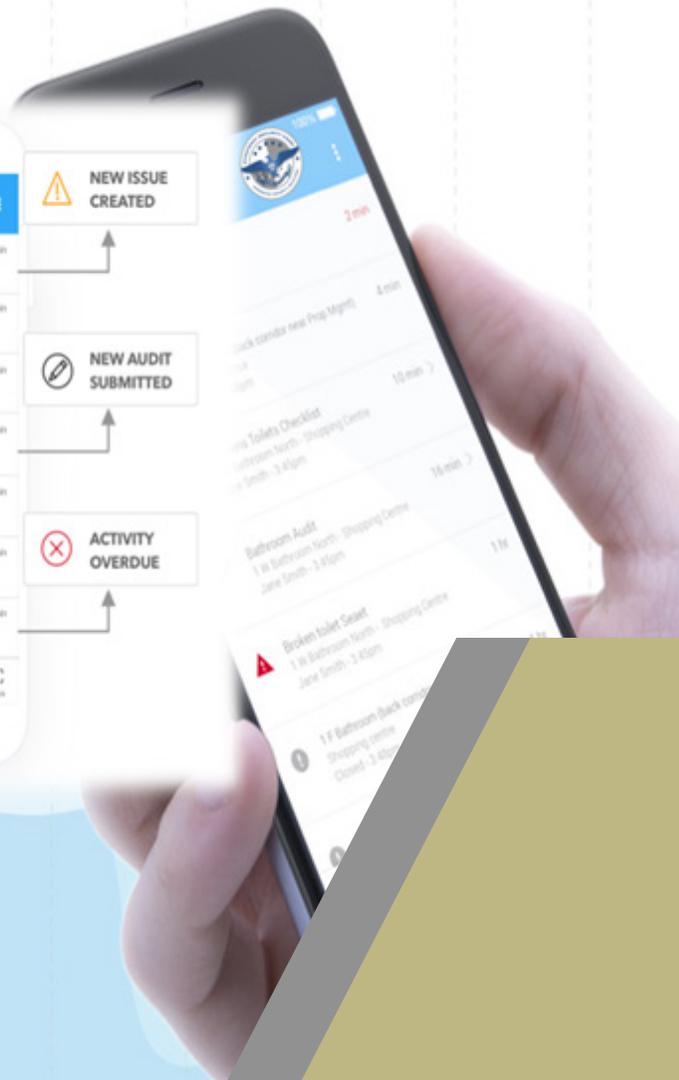

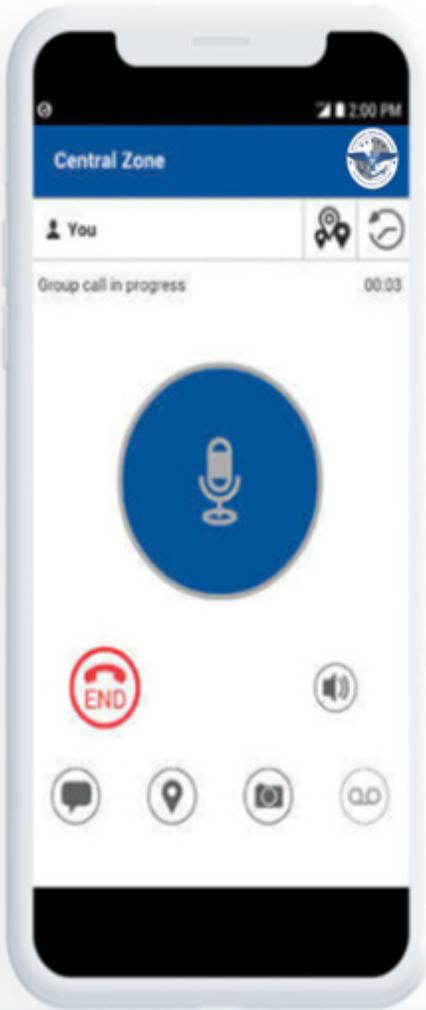

- 24/7/365 Global Security Operations Center (SOC)
- State-of-the-art technologies,
- Security best practices,
- Operations-intelligence data convergence and sensor/platform integration
- Real-time situational understanding
- Enhanced mission-centric collaboration
- Law enforcement connectivity
- And trained personnel with decades of professional security, law enforcement and military intelligence experience to deliver a converged operations/intelligence rhythm through real-time data sharing and collaboration across organizational divides.

Strategic's Overwatch solution enables cross-echelon integration from strategic users and platforms down to officers on the ground that are managed by Overwatch's Intelligence Driven Workforce Systems.

Overwatch provides a variety of apps make possible dynamic, multi-touch, information collaboration across users, organizations and platforms.

PROVIDING VALUE DRIVEN SUPERIOR
SECURITY SOLUTIONS TO OUR CUSTOMERS!

PROVIDING VALUE DRIVEN SUPERIOR SECURITY SOLUTIONS TO OUR CUSTOMERS!

AUTONOMOUS ROBOTS

An autonomous robot is a robot that performs behaviors or tasks with a high degree of autonomy. Autonomous security robots combine four leading-edge technologies: artificial intelligence, robotics, self-driving capability and information engineering.

A fully autonomous robot can:

- Gain information about the environment
- Work for an extended period without human intervention
- Move either all or part of itself throughout its operating environment without human assistance
- Avoid situations that are harmful to people, property, or itself unless those are part of its design specifications

When layered with manned guards, autonomous security robots can enhance a company overall security, property and asset protection program. Autonomous security robots can be deployed for warehousing, supply chain, distribution, manufacturing, inventory management, general industry, and more. Sensors allow them to navigate while steering clear of obstacles, and GPS technologies, always enable them to know their location. Clients or Security Operations centers can access real-time data around the clock via a desktop or mobile apps.

DRONES

Strategic Security has developed a drone platform that provides security officers and emergency responders with a professional tool for collecting unlimited aerial data and gaining real-time visibility into security threats and emergency situations.

- Assess infrastructure
- Capture real-time visual and infrared data for immediate analysis
- Utilize drone imagery collected to make actionable, rapid and accurate decisions
- Survey and mapping
- Damage assessments
- Rescue and recovery
- Event security
- Aerial patrols

**PROVIDING VALUE DRIVEN SUPERIOR
SECURITY SOLUTIONS TO OUR CUSTOMERS!**

TEMPORARY FACILITIES

Strategic Security Corp provides turnkey temporary life support facilities for a variety of populations for a multitude of events. From aiding first responders in the wake of natural disasters to supporting surge populations performing major maintenance events in commercial facilities to assisting warfighters at military operational sites during training events, Strategic Security Corp understands the operational tempo and the level of service required to meet the demands of these mission-critical events.

These populations require climate-controlled shelter, nutritious sustenance, potable drinking water, sanitary facilities, and waste removal in order to maintain their health, safety, and vitality.

With an inventory of strategically staged assets, in-house transportation capabilities, and proven experience, we stand ready to respond.

- Facility capable of housing 2000 individuals
- Capacity to not only house 2000 people, but are self-sustaining providing supply power, fuel, water, 3 meals a day, laundry and lavatories.

PROVIDING VALUE DRIVEN SUPERIOR SECURITY SOLUTIONS TO OUR CUSTOMERS!

KEYS

SSC's keys to success for maintaining a full complement of skilled and motivated employees is simply defined and encompasses the following:

- Finding & hiring the best people for the job
- Preference will be given to applicants that reside in neighboring communities in order to support new jobs vision of creating jobs for the local residents.
- Providing "living" wages & attractive benefits
- Providing a variety of quality training programs
- Identifying top performers through quantifiable measurements & customer feedback
- Recognizing, rewarding & retaining the best of the best
- Retaining highly qualified, trained Security Officers to meet continued service requirements

RECRUITMENT

SSC has an on-going recruiting program designed to attract the most qualified candidates. We are constantly recruiting in order to provide candidates for our positions. We utilize multiple resources including, but not limited to: Monster.com, Military.com, HireVets.com, local associations, local papers, local career centers and government employment agencies.

EMPLOYMENT ENGAGEMENT

There is no greater element that has contributed to the growth and success other than our guard force. Utilizing traits of The Minnesota Multiphasic Personality Inventory (MMPI), our hiring managers assesses personality traits and psychopathology to select the ideal candidates that possess, "The Strategic Spirit". The Strategic Spirit is intended to source applicants that possess foresight, whom enjoy what they do and desire professionalism.

TRAINING

Our commitment to provide the best regulated, trained Security Officers is the driving force behind our extensive training program. SSC invests over 130,000 training hours annually because "our people make a difference" in the quality of service we provide to our clients. In today's world, well-trained security is the best hope for first response, and it is our mission to provide the best – the best people with the best training methodology and programs.

RETENTION

SSC has industry leading recognition and incentive programs that allow us to maintain low turnover and high retention of our employees. We constantly are reviewing retention data and input from our employees on ways to improve our programs. SSC's research into our companywide retention shows that our employee turnover rate 4%, which is among the lowest in the industry at fewer than 14% nationally.

THREAT WATCH™

REAL-TIME ONLINE RISK ANALYSIS

As part of Strategic Security's Overwatch Security Solutions or as a stand alone service. Strategic's Threat Watch risk analysis benefits organizations by providing quantitative real time data to assess risk levels and subsequent level of security or risk mitigation programs to put in place. Leveraging the latest in data mining, analytics and machine learning security operators, Human Resources and compliance groups can cut through the clutter of on-line chatter to quickly identify corporate threats and insights in real time. This advanced monitoring platform eliminates the false positives of traditional threat intelligence solutions at a fraction of the cost.

Strategic Security delivers a flexible solution to assess risk. Threat Watch provides visibility and insight into both physical and on-line risk across an entire organization. The Threat Watch platform systematically and continually scours: Social Media, dark web, Internet groups as well as news platforms and local law enforcement feeds (local, domestic and national). Incorporating Strategic's proprietary technologies and the U.S. intelligence agency's best practices we are able to identify and quantify potential risks and notify clients of potential threats in real time.

Threat intelligence can now be available at all levels of your organization or be limited to key decision makers. When a threat is detected, it is communicated via alert or integrated into existing platforms for seamless situational awareness that provides the broadest possible discovery and evaluation. Early detection of threats helps protect your most crucial assets.

Most organizations relationship with risk is a reactive one. Many times implementing security measures or mitigation plans after the event. With Strategic Security Corp.'s Threat Watch and analysts, organizations can now be proactive and expansive to mitigate risks before they happen. Strategic Security prides ourselves on our desire to not only address any initial security issues, but flexible enough to leverage our diversity; which allow us to anticipate and prevent possible exposures to risk. Pointing out issues is easy; preventing them is now just as easy. Working with you proactively - will be our mission.

- Enhance vehicle patrols and security posture with Strategic's Threat Watch and Lot Watch (additional cost applies).

BENEFITS:

- 2 ARMED OFFICERS in a MARKED PATROL VEHICLE for \$10.03 per hour per location (sample pricing).
- Overall daily cost can be defrayed over all 10 stores / locations based on 8 hours per day 7 days a week.
- Strategic's Mobile Response Security Umbrella cost is 2 ARMED Security Guards and a Marked Patrol Vehicle for \$15.96 to 20.75 ph x 8 hrs a day x 7 days a week x 10 locations = **\$8,937.60 versus**.
- Average national cost of an ARMED security guard is \$35.00 ph x 8 hrs a day x 7 days a week is \$1960.00 x 10 locations = **\$19,600.00**.
- Cost savings of \$10,662.40 a week
- Enhance Corporate Security / Mitigate Risks
- Reassure customers and crew with professional response
- Minimize Loss Runs / Be Prepared for Crisis
- Proactive Emergency Response

**MOBILE RESPONSE
- QUICK REACTION
TEAM SECURITY
UMBRELLA**

STRATEGIC SOLUTIONS:

MOBILE RESPONSE SECURITY UMBRELLA PROGRAM BREAKDOWN

MONITORING & COMMUNICATION:

- 24 or 10 or 8 Hour Coverage a Day for 7, 5 or 3 Days a Week Available
- Property Manager or an Independent Owner / Operators can request the response of the Mobile Response Team through SSC Ops Center for an incident or concern. Directed patrols can be requested.

MOBILE RESPONSE TEAM:

- 24 or 10 or 8 Hours a Days Coverage Response
- 2 Uniformed Armed Security Officers in 1 Mobile Response Vehicle
- UMLIMITED Site Security Visits per Shift by Mobile Response Team
If not requested, visits are conducted randomly and at irregular intervals.
- Quality Assessments of operational and safety issues (i.e. lights out, cleanliness, maintenance issues, employee safety issues, missing staff, missing equipment, trash, staff training, records, etc.)

PRICING (Sample):

Cost per hour \$10.03 {Terms: 1-year contract}

- ✓ 2 Uniformed Armed Security Officers in 1 Mobile Response Vehicle Covering Unlimited locations provided they are within the same geographic 6-mile radius for 8 hours a day 7 days a week
- ✓ 10 Site Security Visits per Shift by Mobile Response Team If not requested, visits are conducted randomly and at irregular intervals
- ✓ Operations Dispatch Center & Mobile Response
- ✓ Must be consecutive days work days
- ✓ Shift hours must be the same

**Autonomous Remote Operations
(ARO)s**

THE SMARTEST EYES IN THE SKY

IT KEEPS ME READY FOR ACTION

ALWAYS ON DUTY

The Strategic Security Nightingale base stations allow the drones to be mission-ready 24/7. The drones and base stations are a force multiplier providing additional capabilities, and they never switch off. They're always on duty, alert, and ready for deployment.

CHARGING

When the drone lands on the base station after a mission, it immediately begins charging through contact points in its legs and the gold-plated nickel charging plates on the base station. Our contact charging solution has been proven reliable in all sorts of challenging weather environments.

EDGE COMPUTING

The base station contains the necessary network and computation capacity to provide drone coordination support, task assignment, and machine learning processing power to the system. All data gathered by our system is processed and stored behind your firewall—ensuring your data is onsite and safe.

AUTONOMOUS TAKEOFF AND LANDING

Using advanced computer vision, IR beacons, and cameras, our drones can take off and land completely by themselves—even in high wind speeds. So when duty calls, our autonomous system can have a drone airborne in less than 30 seconds.

WEATHER PROTECTION

The base station comes with both heating and cooling elements to keep the drone at an optimal operating temperature and protect the drone from the weather elements. Nightingale now also offers a specialized cold-weather base station with more robust heating and ice melting capabilities.

REDUNDANCY

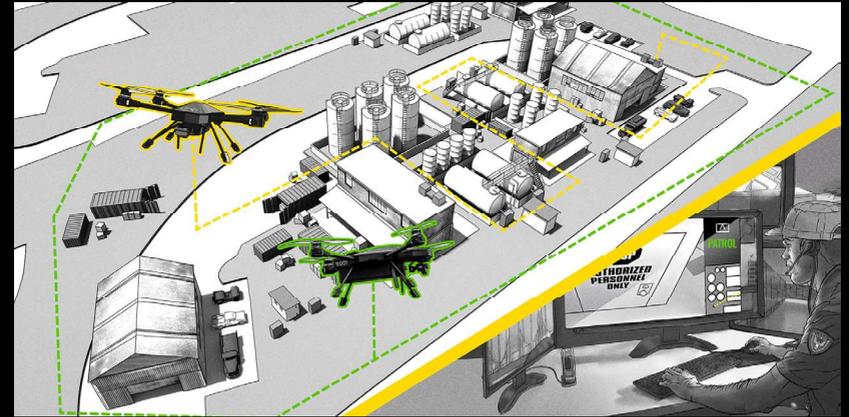

Our drones and base stations communicate and collaborate. If a drone is on a mission and its battery runs low, another drone will autonomously deploy and finish the mission—allowing the first drone to safely return to the base station and recharge.

THIS IS WHAT I DO

AUTONOMOUS THREAT RESPONSE

When a security alarm is triggered, the system automatically dispatches a drone to the alarm location and streams live video to the security team.

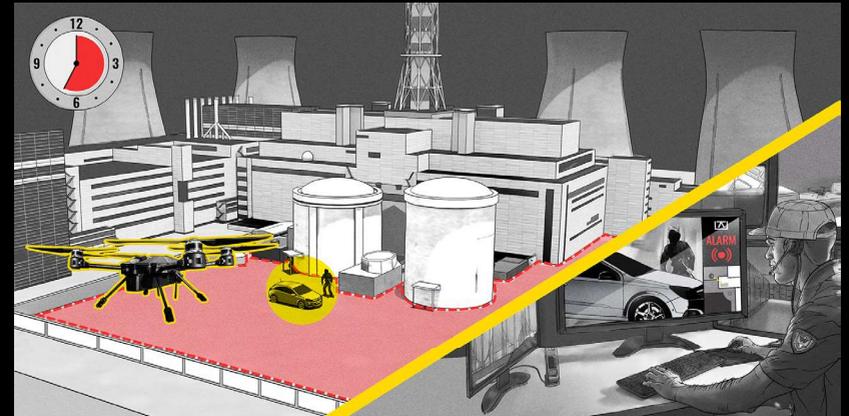

SCHEDULED AUTONOMOUS PATROLS

You can set repeatable, autonomous patrol missions based on day, time, path, altitude, hover duration, camera direction, and other mission details.

MANUAL SURVEILLANCE MISSION

During a major event such as an oil spill, chemical leak or fire, you can manually dispatch a drone to monitor events as they unfold on the ground.

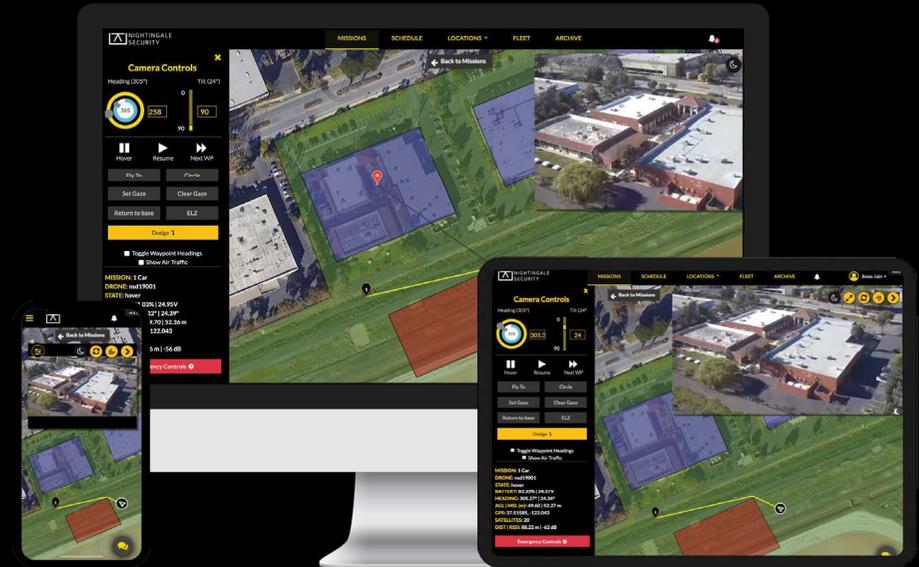

ROBOTIC AI INTRUSION DETECTION (RAID)

Our drones autonomously patrol areas of interest around the facility and send out alerts only when they detect human and vehicle intruders.

THIS IS MY COMMANDING OFFICER

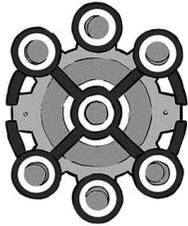

Mission Manager software provides live command and control, actionable intelligence for surveillance, and fleet coordination from anywhere in the world and can be monitored by the customer or outsourced to Strategic Security's Security Operations Center (SOC) Overwatch Security Solution platform.

The simple and intuitive command and control interface allows security officers to create missions, launch drones, view live video streams, and receive alerts from the drones to gain situational awareness quickly and efficiently across large facilities.

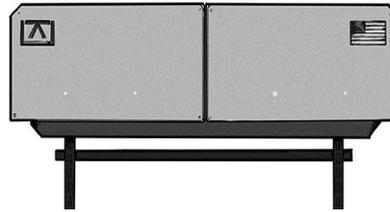

- **Command your global fleet from anywhere at anytime**
- **Share live video streams to gain situational awareness**
- **Intelligent Path Planning (IPP)**
- **Onboard AI for object recognition and following**
- **Mission Manager works across all devices - PC & mobile**
- **Schedule missions to launch at repeating intervals**
- **Configure mission details -- flight path, hover duration, etc.**
- **Secure user role management within Mission Manager**
- **Live chat with other users directly within Mission Manager**
- **Review archived video footage**

I'M READY TO SERVE

FEATURES

- Autonomous Perimeter Security
- Designed specifically for security applications
- Stationed onsite for rapid response to alarm events
- Autonomous takeoff, patrol, landing and recharging
- Routine, pre-scheduled flight missions
- Access Mission Control app from PC and mobile devices
- Stream live video feeds to multiple users simultaneously
- Dual sensor (visible and thermal)
- Expandable platform allows integration of new applications
- Autonomous navigation to the point of interest
- Object recognition and following
- Drone-relay capability for extended or persistent monitoring
- Retrieve data and video 24/7 from our secure data storage
- Integrates with existing VMS, alarm sensor and alert systems

BASE STATION SPECS

- Rooftop mountable with Unistrut Metal Framing System
- IR landing beacon and drone centering mechanism
- Autonomous contact charging of drone
- Cellular, WiFi or Local network connectivity
- Sensors for remote monitoring of base station health
- Weight: Net 160 Kgs. (352 Lbs.) / Gross 265 Kgs. (583 Lbs.)
- Dimensions: LWH - Closed (62.25" / 66.125" / 32") / Open (62.25" / 148" / 32")
- Power: 110V AC / Without base heater: 1000W / With base heater: 2000W Base station is equipped with UPS to maintain minimum system functionality in the event of a power failure. Backup power for control station varies per installation.

DRONE SPECS

- Weight: 5500 grams (12.13 Lbs.)
- Dimensions: LWH - without propellers (18" x 25" x 11") / including propeller discs (26" x 33" x 11")
- Propulsion: 4x brushless DC motor
- Power: 6 cell lithium polymer battery (16 Ah 22.2V nominal, 26.1V max)
- Flight Endurance: 33 minutes max (~25 min software controlled)
- Flight Performance: 50 mph max groundspeed (35 mph software controlled); 8 ft/s ascent / 5 ft/s descent (software controlled); 20 deg/s rotation rate (software controlled)
- Collision Avoidance: Anti-collision strobe (>3 mi visibility); Red/green direction lights; Intelligent Path Planning avoids all predefined ground obstacles and hazards; ADS-B in integration for aircraft collision avoidance (in development)
- Camera Payload: RGB daylight digital camera: 47 degree HFoV, 720p (streamed video) and 1080p (recorded video), h.264 encoding, Thermal imager: 24 degree HFoV, 320x256 h.264 encoding
- Encryption: AES 128
- Max Wind Speed Rating: 40 mph sustained / 25 mph gusts
- Operating Temperature: Range 0F - 122F; No-fly conditions: icing; electrical storms / convective weather, dense fog, hail
- Operational Radius: 1.5-2 miles (depends on location-based LOS and RF conditions)

DHI-ASI7213X-T1 Facial Recognition Access Controller

Product Overview

DHI-ASI7213X-T1 Facial Recognition Access Controller provides an accurate and sleek way to take a person's temperature. This product takes temperature, denies or allows access and remembers your face all in one. With this product facial recognition, it can recognize up to 360 different variations of a person's face. The product also can deny access if a person is not wearing a mask, if a person is above the threshold it will set off an alarm. The DHI-ASI7213X-T1 recognizes and takes temperature within 0.2 seconds. Comes in three different forms, a wall mount, floor stand and a desktop stand. Perfect for restaurants, office buildings, schools and factories.

ASF172X-T1
Floor Stand

ASF072X-T1
Desktop Stand

Price: **\$5399**

Accessories: **\$599.99**

\$199.99

Product Features

- 2.5D curved screen
- 7 Inch LCD display with resolution of 1024×600
- Auto fill light reduces light pollution
- Can hold 100,000 users, 100,000 face images, 100,000 cards, 100,000 password, 50 administrators, and 300,000 records
- Support face, IC card, password unlock and unlock through their combinations
- With face detection box; the largest face among faces that appear at the same time is recognized first; the maximum face size can be configured on the web
- Face-camera distance: 0.3 m–2.0 m; human height: 0.9 m–2.4 m (lens-ground distance: 1.4 m)
- With face recognition algorithm, the access controller can recognize more than 360 positions on human face
- Face recognition speed: 0.2 s per face
- Support liveness detection
- Accurate recognition in backlight and front light
- Various unlock status display modes protect user privacy
- Support enabling/disabling the thermometer; temperature measurement range is 30°C to 45°C; temperature measurement distance range is 0.3 m–

SSC-DH-TPC-BF5421-T Thermal Camera, JQ-D70Z Blackbody and DHI-NVR5216-16P-I 4TB NVR Recording System

Product Overview

DH-TPC-BF5421-T Thermal Camera and JQ-D70Z Blackbody can identify individuals with an elevated temperature. With a built-in AI algorithm, it can monitor multiple people from 9.8 feet away and 4.3 feet wide, enabling fast assessment without personal contact. Monitors temperature even when people use face accessories & headwear and rejects false positives like hot drinks. The thermal camera, blackbody and recording system is perfect for the following applications; hospitality, public transportation, commercial buildings, casinos, education and retail. It provides accurate, fast and mass temperature scanning. The thermal camera offers the latest hybrid thermal network camera that combines a Vanadium Oxide sensor with a 2 MP visible-light sensor. The Vanadium Oxide detector offers high thermal sensitivity (≤ 50 mK) that allows thermal cameras to distinguish objects in a scene with minimal temperature differences. The camera captures detailed images where thermal contrast between object and background is minimal.

"The officers assigned are excellent when it comes to de-escalating situations and defuse the incident without any problems. They are always ready to assist FEMA employees to their full capacity."

B Valencia Scott

Disaster Recovery Center Manager
U.S. Department of Homeland Security
Federal Emergency Management Agency

"Strategic works with us to understand our corporate culture and the global threat we face operating in the U.S, Mexico and the U.K They deliver results across an array of services."

Edward O.

Sr. Director of Facilities,
MSC Industrial Supply Co.

"The responsiveness of the security officers is exemplary. They routinely utilize their de-escalation training with County consumers as well as utilizing their progression of force training to ensure County employees, customers and visitors always feel safe. Officers are always calm and professional. The County preformed a customer satisfaction survey of its properties and Strategic received a 96% satisfaction rating of good or very good."

Richard J Goff

Security Manager
Mecklenburg County Government
Asset and Facility Management

"Client is very happy with the detail." Excellent preparation, well trained, outstanding execution and best of all uneventful outcome. This just doesn't happen without good people doing what they need to do to ensure we're all on target."

Zachary Y.
